

ISM Blood Donation Drive

The Cultural Club of the Institute of Science and Management (ISM), in collaboration with Tawau General Hospital, held a blood donation campaign recently at the institute's campus in Tawau.

The event that took place on Saturday (23 June 2018) was the first blood donation activity held in ISM. It began at 9:00am and ended around 1:30pm. More than 40 individuals consisting of students, lecturers, staff members and the public came forward and volunteered for the noble cause.

There were 26 successful donors and each donor was presented with an ISM recycle bag containing biscuits, water, a carton of eggs and a pre-mixed powdered drink. These humble yet special gifts were sponsored by QL Group Tawau and Teck Guan Group. ISM hopes to make this an annual event as the response was very encouraging.
